Robert D. Vance
Secretary

Tony Dehner
Commissioner

November 19, 2010

Kentucky Malt Beverage Manufacturers, Distributors and Retailers:

This Department's mission to combat under-aged drinking and promote public safety has included the dissemination of information about potential dangers in the sale and marketing of combined energy/alcoholic beverages¹ for sometime now. The US FDA's recent conclusion that products combining high levels of both caffeine and alcohol are *not safe* for consumption by anyone², gives cause for this Department to urge all Kentucky Manufacturers, Distributors and Retailers of malt beverages to immediately discontinue all further sales of all combined energy/alcoholic beverages. Because of the potential threat these beverages pose to the public safety of all Kentuckians, this request will continue in effect until such time as the US FDA may conclude that these beverages are safe for consumption.

ALCOHOLIC BEVERAGE CONTROL BOARD

STEPHANIE STUMBO
